Solutions for Smarter Home Security

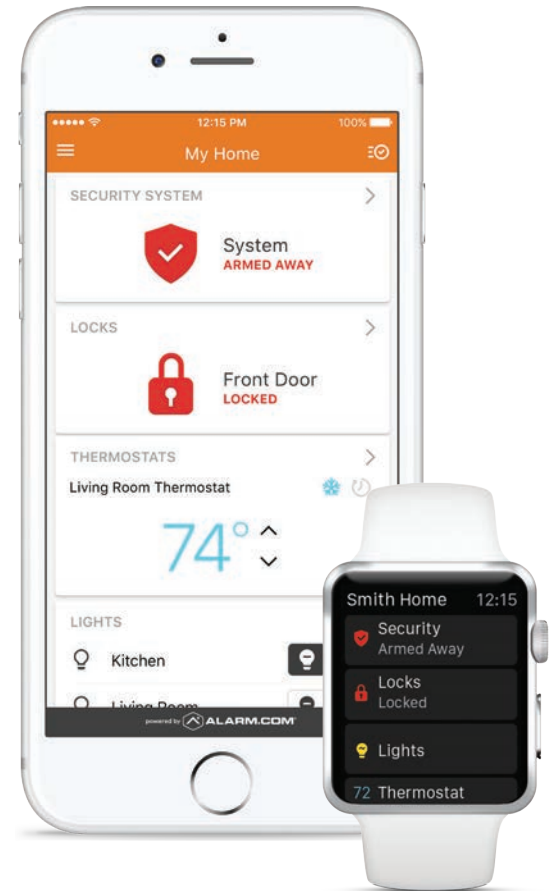

powered by  **ALARM.COM®**

An Alarm.com powered system provides solutions to monitor and protect your home — and everyone in it.

More than just a smart app, Alarm.com seamlessly connects the key systems in your home on one platform so they work more intelligently together.

Have your home work automatically to meet your needs

- Protect what matters most, no matter where you are
- Know who's coming in and out
- Instantly see what you care about
- Rest assured your loved ones are safe
- Create the perfect climate and ambiance
- Take control of your energy use
- Integrate voice-controlled automation devices

Smarter Home Security

Keep your loved ones protected with professionally monitored Smarter Home Security and always be connected to what's happening at home.

DEDICATED CONNECTION

Dedicated and secure cellular communication provides safe, reliable uninterrupted protection.

TWO-WAY EMERGENCY VOICE

Communicate directly with first responders via the security panel during emergencies.

PATENTED CRASH & SMASH PROTECTION

Your system will continue to work even if the security panel is damaged or the phone line is cut.

ALWAYS ON AWARENESS

Instant Alerts: Get real-time notifications by text or email the moment something happens in your home.

Personalized User Codes: Create unique user codes to know who's coming and going at all times.

PROACTIVE SAFETY

Connected carbon monoxide and smoke detectors provide an extra layer of security.

ALARM.COM

The Smith Home: Kitchen Door was left open at 12:03 PM on Wed, 08/11.

Home Automation

Upgrade your home with easy control and intelligent automation through a single app.

FULLY CONNECTED

Your Alarm.com powered system assembles the information from all of your connected devices — such as lights, locks, thermostats and sensors — enabling them to work together seamlessly.

LOCATION-BASED GEO-SERVICES

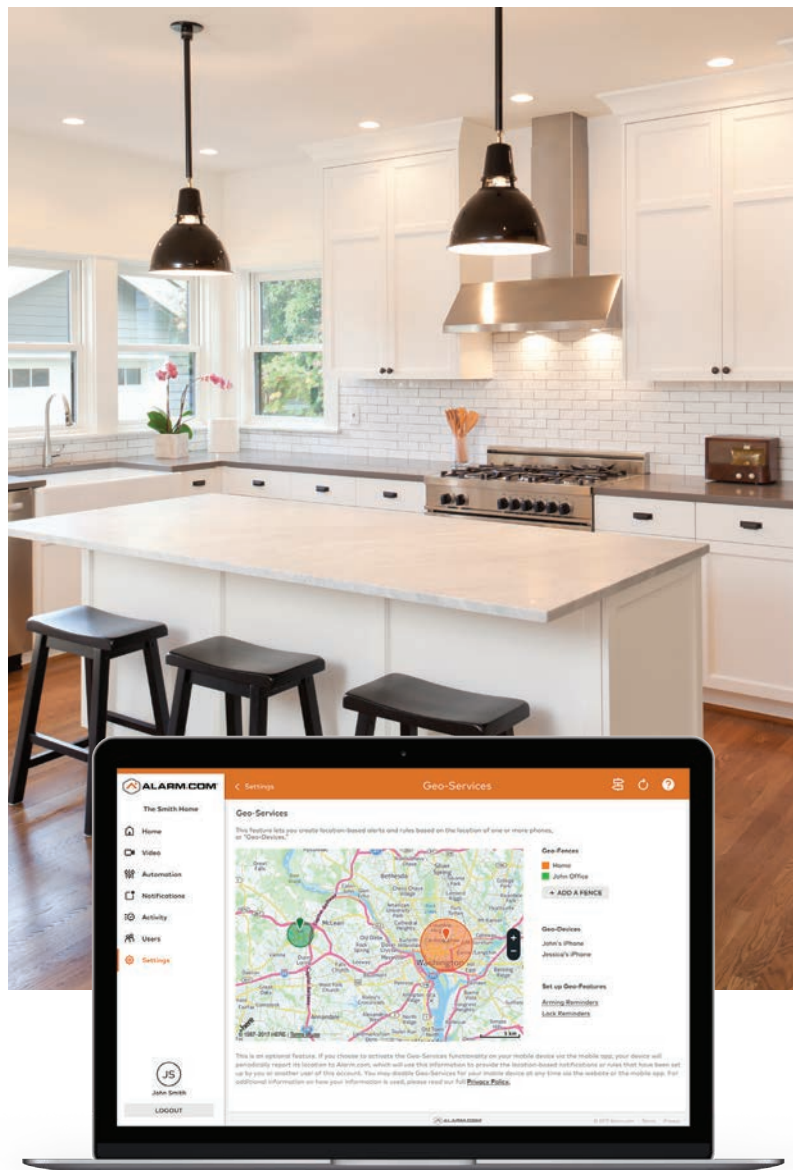

Geo-Services gives you added automation that responds based on your location. Have your thermostat automatically adjust when you leave for work or get a reminder if you forget to arm the security system when you drive away from home.

EASY CONTROL

Not just for your smartphones or tablets anymore, you can also use Apple, Amazon and Google devices with your Alarm.com powered system. With a press of one button or a simple voice command, your home will perform any number of pre-set event automations — no matter where you are.

Access

Enhance your security with complete control and visibility over all the entry points to your home.

LOCKS

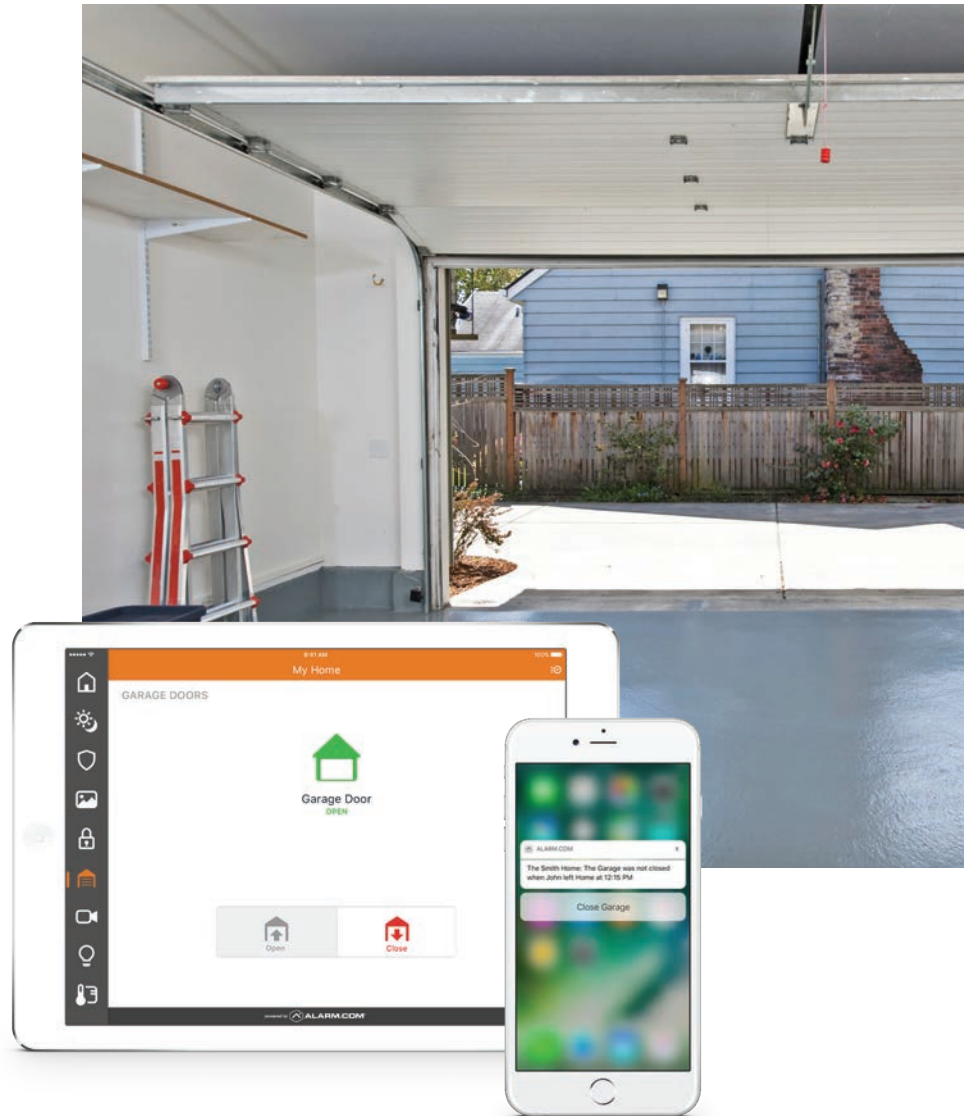

Seamlessly integrate door locks with your system for real-time visibility and control.

- Lock the door automatically when your system is armed
- Get a text alert when the door is unlocked
- Assign unique user codes for temporary access

GARAGE DOORS

Never again wonder whether you closed the garage door!

- Check to see if your garage door is closed no matter where you are
- Open or close the garage door remotely through the app
- Easily set up rules to close the garage door automatically when your system is armed
- Receive an alert if you leave the door open

Video Monitoring

LIVE STREAMING VIDEO

Watch live feeds from your property right on your phone, tablet or computer.

INSTANT VIDEO ALERTS

Get video clips sent directly to you when the front door opens, the alarm goes off, or if motion is detected.

NEVER MISS A THING

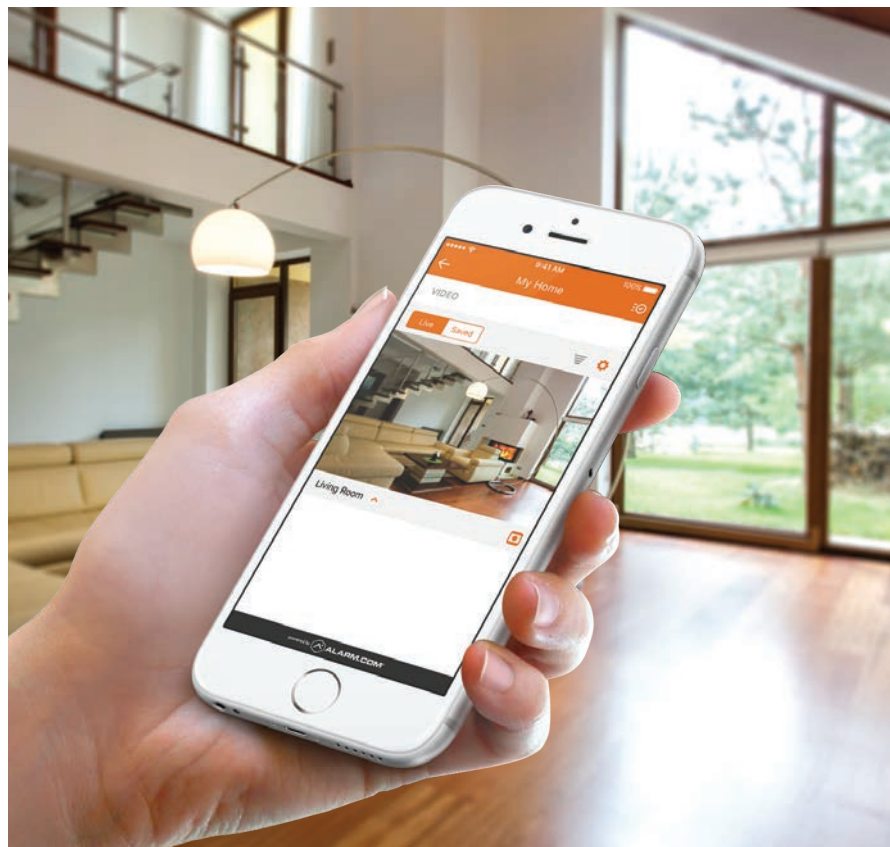

Easily searchable event history makes it quick to find the clips you want to watch later.

CONTINUOUS RECORDING

Enjoy 24/7 HD recording with cloud-based streaming and video clip access from anywhere.

DOORBELL CAMERA

Never wonder who is at the door with the Alarm.com Wi-Fi Doorbell Camera. Check your smartphone to see and speak to anyone at the door - even if you're not home.

Image Sensor

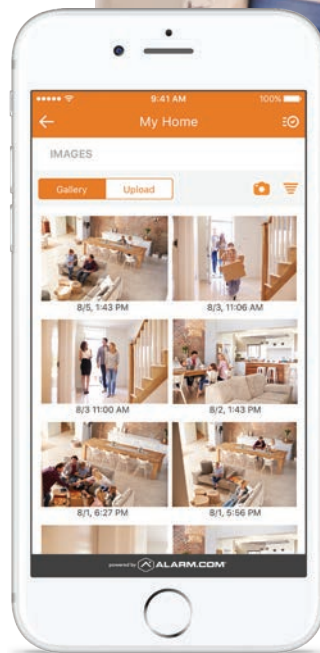

The exclusive Image Sensor is an advanced, wireless motion sensor with an on-board camera that takes a picture when motion is detected and sends it to you.

SEE INSTANTLY

Whether it's day or night, you can see what's going on immediately.

- High quality images
- Easy installation
- Pet immune motion detector
- On-demand views
- Customized notifications

Get at-a-glance visibility into what's happening at home, no matter where you are.

Ambiance Control

CLIMATE MANAGEMENT

Control your thermostats and lights no matter where you are. With customizable, flexible schedules you always come home to a comfortable environment.

INTELLIGENT LIGHTING

Remotely turn your lights on or off, have them come on automatically when you walk in the door, or set a schedule to make it look like someone is home when you're on vacation.

SET THE MOOD

Use multi-colored lighting to turn the lights purple when it's time for bed, or make the lights cool white when it's time to wake up.

SOUND EFFECTS

Set rules to have speakers turn on at a certain time of day or turn your music off remotely if you left it on.

Energy Management

A SMARTER THERMOSTAT

The Alarm.com Smart Thermostat is designed specifically for your smart home. It uses information from other smart devices to automatically help save energy and money without sacrificing comfort.

PRECISION COMFORT

Using temperature sensors from across the home, it's now possible to optimize for the right temperature in any room, not just where the thermostat happens to be.

RESPONSIVE SAVING

Leveraging data from inside and outside the home, the Alarm.com Smart Thermostat automatically responds to activity, occupancy, and weather patterns.

COMPLETE CONTROL

Adjust or change your thermostat settings anytime from anywhere, and instantly know if someone else makes a change.

MEASURABLE RESULTS

Get real insight into your energy use and see where you're consuming the most, so you can make changes that have a real impact.

Water Management

DAMAGE PREVENTION

Minimize expensive water damage caused by burst pipes, leaking faucets, and split hoses with connected water sensors and valves.

SUMP PUMP AWARENESS

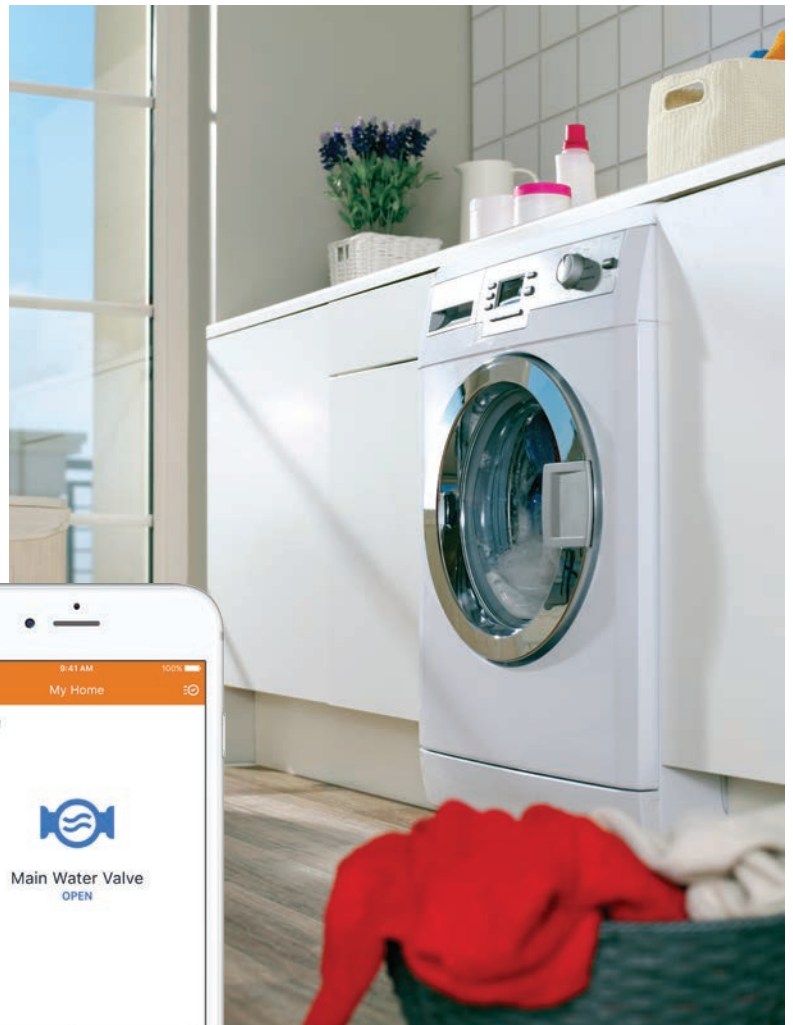

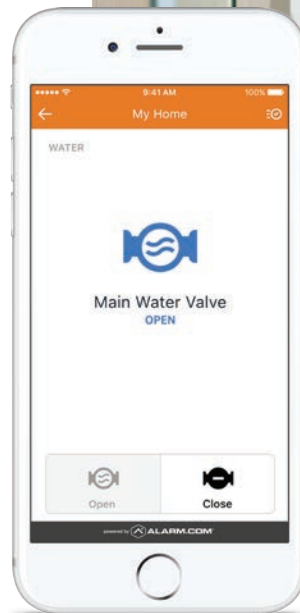

Monitor your sump pump and get alerted if it's not running or if the water level is too high.

IRRIGATION CONTROL

Remotely turn sprinkler systems off if it rains unexpectedly or check on sprinkler status to ensure that a scheduled watering started on time.

IMMEDIATE RESPONSE

Know instantly if a flood event has occurred and take immediate action right from your app – no matter where you are.

Wellness

The Alarm.com powered Wellness solution allows you to help aging loved ones live independently with enhanced safety, security, and comfort. Keep an eye on routine activity to make sure your loved one is getting up and about and receive alerts when unusual activity occurs. More than an emergency button, Wellness delivers a strong 24/7 safety net.

ACTIVITY PATTERNS & ALERTS

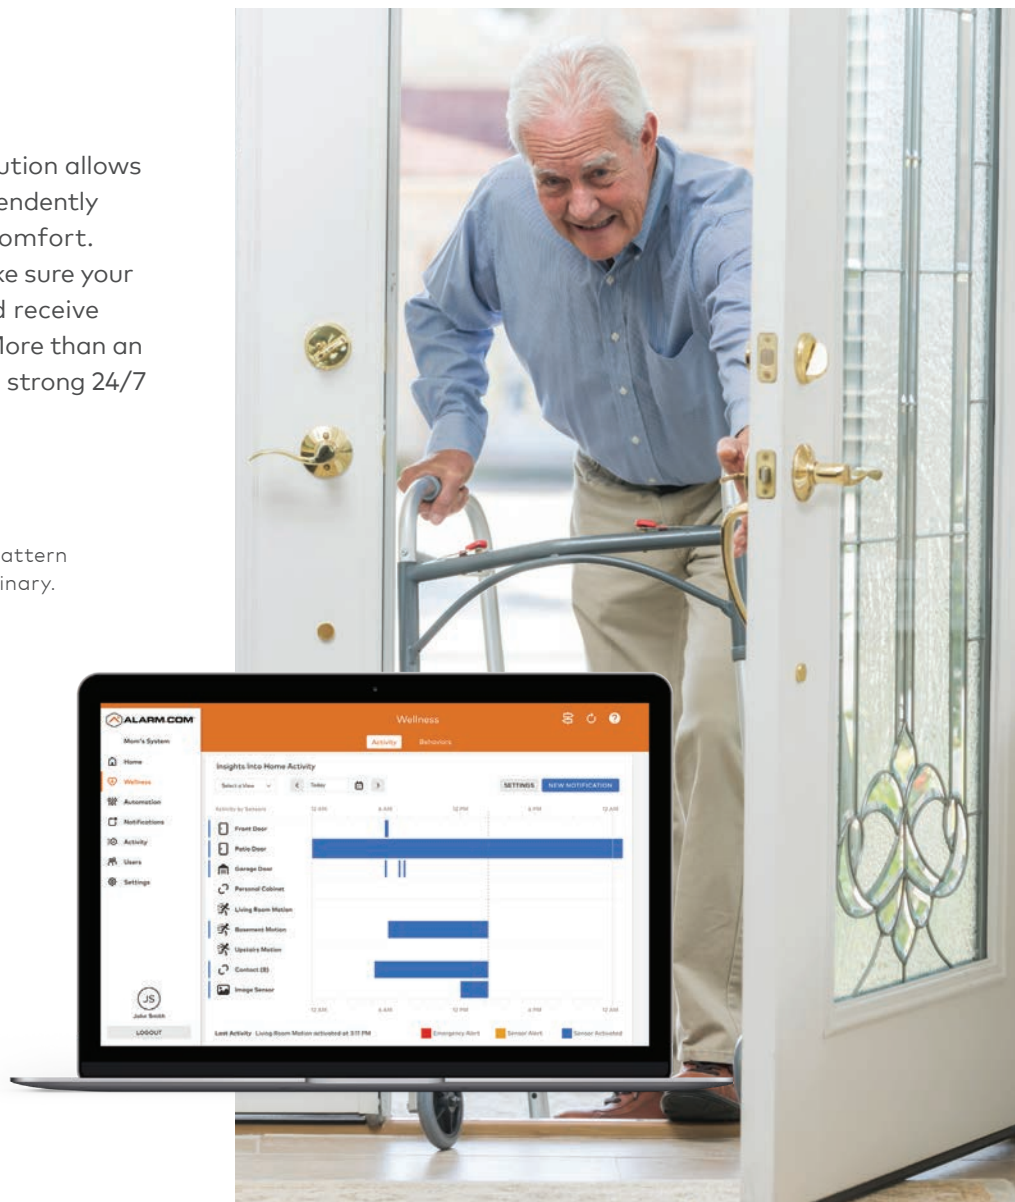

Understand your family member's activity pattern and get an alert if anything is out of the ordinary.

AWARENESS

Remotely check on sensors, temperature, lights, and locks through the mobile app.

SECURITY & AUTOMATION

Understand your family member's activity patterns and get an alert if anything out of the ordinary happens.
